REPORTS FROM OFFICERS AND STANDING COMMITTEES

4. City Administrator's Report

Cynthia reported first on the City personnel update. Wes Lopez was sworn in last week by Mayor Boley and has begun training as the newest Police Officer in the City of Smithville. The Police Department is sponsoring two academy recruits in the upcoming class. Landon Summerville and Colby Matthys will begin with the City on April 26.

We have extended an offer for the position of the Public Works Analyst and received word this week, that person has declined the position. They are currently interning in another community and we have a feeling they received position there. We continue

recruitment for that position, and we also are in recruitment for the Management Analyst position in the Finance Department.

A bid for fireworks display was posted, with no responses. Staff reached out to representatives of Aerial FX to learn that they did not submit a bid due to uncertainty on their part in being able to provide product. Current stock is very low and shipping out of China and recent events regarding the containership have significantly slowed supply chains. Staff is in contact with the vendor and as we learn that supply may be coming back up, will re-bid the contract in the hopes that we will have responses.

The fireworks display is a joint venture with the Clay County Parks and Recreation Department and they have been notified of the current concerns. Staff will continue to monitor the situation and be in communications with vendors, the County and keep the Board informed.

There are pictures of the progress in the packet of the City Hall renovation project. The contractor indicates they remains on target for completion in June. We are very excited with the progress that they are making in the new offices.

Following City Attorney, John Reddoch's review of this evening's agenda and based on his concerns and requests staff is recommending that the Board make a motion to amend the agenda this evening to move the Certification of Election Results, the Oath of Office and the Board of Alderman Orientation to earlier in the agenda. This allows the new Board to take action on all items before the Board tonight including the second readings of the Ordinances. What staff is requesting at this point in time would be a motion from the Board to move item number ten from the agenda to number five and certify the election. Next would be adjournment Sine Die (end of legislative session) to adjourn the existing meeting, we would move to the Oath of Office, then the Mayor would call a new meeting to order and begin with the Board of Aldermen orientation. Bill No. 2898-21 would then be item number ten and we would move on through the agenda has previously outlined.

Alderman Chevalier moved to amend the agenda to move items 10. Resolution 913, 11. Oath of Office and 12. Board of Alderman Orientation up in the agenda to items five, six and seven per the City Administrator's recommendation. Alderman Atkins seconded the motion.

He is doing a fantastic job. He even dragged the Mayor down to Columbia last week to promote Smithville to the State Parks Association.

City Administrator's Report

April 15, 2021

Corps Culvert Rehabilitation

Staff has received notification that the United States Army Corps of Engineers at Smithville Lake will be conducting culvert rehabilitation work along Litton Way and Smith's Fork Drive from May 3 through 14.

According to USACE information, during this timeframe, vehicle traffic along Litton Way will be impacted. All necessary precautions will be taken to ensure a safe working environment and minimal vehicle impact. Safety cones, signage and a flagger will be in place when required and prior to any work commencing. Culvert relining crews from Hydro Klean LLC., will be staging vehicles along both Litton Way and Smith's Fork Drive, when necessary. Work hours for this project are to be 8:00-4:00 PM daily (but may be adjusted, with the possibility of weekend work) The below was provided by USACE and depicts those areas that will be affected along both Litton way and Smith's Fork Drive. The yellow pins reflect the location of culverts to be rehabbed/worked on.

Streetscape Project Update

Sands Construction has begun the Streetscape Phase II Project on Main Street from Commercial to Liberty. The project includes construction of approximately 10,200 square yards of asphalt street replacement, 650 linear feet of concrete curb and gutter, 1,200 square yards of concrete sidewalk, 120 square yards of brick sidewalk, 15 streetlights with base, traffic signs, landscaping, concrete alley, post-tension concrete basketball court and all associated appurtenances. The project begins on the east side of the intersection at Main and Commercial and extends to Liberty Road. The project also includes overlaying Main Street to Meadow and on Liberty from Main Street to Brasfield.

The Contractor has installed the underground electric from Commercial Street to Smith Street and has completed the footings for the streetlights in this area. Next week, the retaining wall in front of the Montessori School and the Apollo House will be completed and the sidewalk will begin to be installed. The old playground equipment has been removed to make way for the new Basketball Court.

The Drainage ditch along Smith Street that drains under Main Street is slowly eroding behind the street and the sidewalk on Main Street. Staff has asked the contractor to provide a Change Order cost proposal to realign the ditch and replace this sidewalk on the southside of Main Street. Additionally, there are some drainage issues on the south side of Main St from Smith Street to Heritage Park and we have asked the contractor for a cost to replace this curb and gutter so that when the overlay is completed, standing water is not an issue.

The Contract outlines a substantial completion date of September 9, 2021.

White Iron Ridge Fireworks Concerns

As the Board is aware, a series of approvals of permits for discharge of fireworks associated with events at White Iron Ridge have come before the Board in the several months the event facility has been open. At a meeting earlier this year, Board members requested staff explore the option for approvals to be completed administratively. Staff has begun research and development of a process for review. In the last few weeks, concerns with the displays at the venue have resulted in calls to City Hall, the Police Department and some Board members. Staff continues to review options for the best review mechanism for such requests and will provide that information for Board review and direction in the coming months.

City Hall Renovation

Staff, the architects and contractors met for a progress meeting on Thursday. The contractors indicate they remain on target for early June completion of the project. The men's restroom is nearing completion with paint wrapping up this week, flooring being done early next week and fixtures and partitions being placed to be completed by May 7. Construction will then immediately start on the women's restroom. Stephen, Linda, and Chuck have all moved into the Board room as temporary workspace while their offices will be repainted, carpeted with new trim, and new doors placed. Work on those offices will start mid-week next week. Kitchen countertops, fixtures, and appliances are all in City Hall ready to be placed. Contractors estimate these will be installed when the men's restroom has been completed.

Tile work in the men's restroom, which has also been expanded.

Administration work area.

New copy, mail, work center created from area in breakroom/kitchen.

Meeting room prior to Linda, Chuck and Stephen fully moving in.

Meeting room as co-workspace for Thea, Chuck, Stephen and Linda.

Fourth of July

Mayor Boley has indicated his intent to close City Hall in observance of the July 4 Holiday on Friday, July 2 in addition to Monday, July 5. Additionally, the Tuesday, July 6 Board meeting will be cancelled.
