REPORTS FROM OFFICERS AND STANDING COMMITTEES

4. Committee Reports

Alderman Hartman reported on the May 24 Economic Development meeting. Guest speaker GK Callahan, MU Extension Engagement Specialist, gave a presentation on what programs and benefits the MU Extension offers. They had a demonstration on the GIS

system, and they were able to see what the City's GIS system is able to do and what information is available to residents. They discussed the Economic Development page on the City's website and the need for keeping the information up to date. The committee also continued their discussion of their roles and responsibilities and will be dividing them up between the committee members once the two new committee members are appointed.

5. City Administrator's Report

Cynthia Wagner noted that the City will host a Household Hazardous Waste event on Saturday, August 19 and we are in need of volunteers to help with the event. She explained that if anyone is able to help with the event to contact Mayra Toothman, Assistant to the Public Works Director.

Cynthia also noted that there is also a need for volunteers for Lakefest the weekend of June 15-17. The link for sign up was sent to the Board and City staff.

Cynthia noted that the work has begun on the 4th Street and 4th Terrace project. During exploration work for the project, it was discovered that the sewer line at 4th Street is in bad shape. The inspector had trouble inspecting it because the line was filled with water which suggests that the line may have collapsed. We are already working on the water and street infrastructure, so staff is exploring the possibility of addressing the sewer line issue before completing any of the street improvements. Staff is waiting for the contractor to give complete the quote so we can work on the necessary repairs. The 4th Street and 4th Terrace project does have a force account or contingency and based on the quote for the repairs staff is hoping to have enough in the force account to be able to address this issue. Cynthia explained that if the quote comes in under for at the amount of the force account she will be able to authorize those repairs and will not need to bring a change order to the Board for approval. She noted that she will keep the Board informed on the matter.
