

Board of Aldermen Request for Action

MEETING DATE: 1/16/2024

DEPARTMENT: Public Works

AGENDA ITEM: Resolution 1300, Awarding Bid No. 24-05 Sanitary Sewer Rehabilitation to SAK Construction.

REQUESTED BOARD ACTION:

A motion to approve Resolution 1300, awarding Bid No. 24-05, Sanitary Sewer Rehabilitation, to SAK Construction, LLC in the amount of \$158,834.

SUMMARY:

Cured in Place Pipe, also known as CIPP lining, is a method of trenchless pipe repair restoration used in existing pipe repair. This process is done to preserve the current pipes that have been damaged by leaks, cracks, intruding roots and rust. A fiberglass “sock” is saturated with an epoxy/resin and inserted into an existing pipe. Steam is sent through the liner pushing the liner against the wall of the old pipe and curing the resin. The result is a plastic liner providing a new smooth surface without intrusions such as tree roots. This also helps with infiltration into the sewer main. Finally, the service lines are re-established with a cutting tool that is sent through the pipe.

This method of maintenance is very practical, avoiding digging up mains, providing a smooth interior surface, seals cracks and leaks and provides additional structural strength to the sewer main.

Three bids were received on January 10th. The low bid is from SAK Construction in the amount of \$ \$158,834.
