City Administrator's Report

April 11, 2024

Federal Earmark Funding

Staff received word late last week from Congressman Sam Graves' office that we have been approved for a portion of the earmark request we made two years ago for sanitary sewer and storm sewer work. Representative Graves requested approximately \$50 million in funds and has had more than \$9 million approved. Funds will support projects in four communities: Hannibal, Excelsior Springs, St. Joseph and Smithville. The project will be administered working with the Corps of Engineers and we currently estimate approximately \$1.5 million in funding. Staff is reviewing project submissions and has started working with the Corps on identifying the best project for this funding given timing and administrative requirements for the earmark.

Staff will keep the Board updated on progress as we move through this process.

Life Saving Medals

In March, the Chief of Police awarded Officer Dominic Bristol and Sergeant Jim Morgan the Life Saving Medal for the following:

Actions on the afternoon of February 3, 2024, NAMELY: In responding to a call for service in which an unresponsive man was found in the restroom of a local business. Sergeant Morgan and Officer Bristol responded to the scene, after their shift had ended, and identified the man. Sergeant Morgan and Officer Bristol recognized that the man was unresponsive and exhibited signs of agonal breathing. Officer Bristol immediately retrieved Narcan while Sergeant Morgan assisted the two individuals with placing the man in a position to render aid and perform CPR. Once lying down, Officer Bristol administered Narcan. Sgt. Morgan again attempted to gain a response from the man. Seeing that the man's breathing remained labored, inconsistent, and extremely faint, Sgt. Morgan began CPR Compressions, and continued until the ambulance arrived. Once on scene, ambulance personnel took Sergeant Morgan's position to render aid while Officer Bristol continued CPR. Paramedics then administered additional Narcan while Officer Bristol continued providing CPR. With the additional Narcan treatment, the man's breathing became stronger, and his level of consciousness improved to a point where CPR was discontinued. The quick action of Sergeant Jim Morgan and Officer Dominic Bristol that day, were instrumental in the protection of this man's life.

Thanks to Officer Bristol and Sergeant Morgan for your efforts and commitment to public safety!

Financial Software and Utility Billing Update

Finance Department staff continue to work with the software vendor on final pieces of the migration to upgraded financial software, which has affected all financial, human resources and utility billing functions. This has been a stressful and time-consuming process. Staff greatly appreciates the patience of the public as we work through new steps required in this system, especially relating to utility bill payment.

As part of the software upgrades, utility customers may have noticed a new look to their utility bills. Staff is currently working on finalizing the format of the bill with Tyler Technologies. Once finalized, the City will be rolling out a communication campaign to explain the new look of the bill.

A special thanks to Finance Department staff Thea Gomez, Beth Stevens and Liz McKee for their work and patience in this transition!

Board Discussion Follow Up

Mount Olivet Traffic

Citizens raised concerns regarding traffic accidents on Mount Olivet at the April 1 meeting. Lt. Col. Jeff Self, Undersheriff with the Clay County Sheriff's Office provided the records for traffic crashes and call for service on this section of roadway from January 2022 to present. This information is attached.

Citizen Comment 134th Street

At the April 1 Board of Aldermen Meeting, a citizen had questions about 134th Street. The City of Smithville maintains the road from 169 Highway west approximately 3,500 feet to a private drive on the west end of the road. Over the years there has been discussion regarding asphalt work on this portion of road. Work to complete a three-inch asphalt overlay, to include mobilization and grading is estimated at approximately \$120,000. Chip seal is estimated at \$60,000. Chip seal work was last completed in 2017. The estimated life of a chip seal roadway is only a few years. Kansas City, Missouri uses this road to access utility plants. To pave the road correctly with subgrade and 8" asphalt would cost approximately \$500,000.

Dust Control has also been brought up and would cost \$4,000 for each treatment which may last several months.
