REPORTS FROM OFFICERS AND STANDING COMMITTEES

7. City Administrator's Report

Cynthia Wagner highlighted several updates to her report. Heritage Park asphalt overlay project has been completed. The improvements to the parking lot added about 10 parking spaces, bringing the total to 122 parking spaces.

The strategic planning process is continuing with a series of public forums designed to gather community input about Smithville's future. Cynthia encouraged residents to participate and share their priorities and ideas.

Cynthia noted that to improve communication and public engagement, the City is launching a new program called "Community Conversations: Your City Up Close." The series will provide residents with opportunities to learn more about city services, tour municipal facilities, and gain a better understanding of local government operations. The first session is planned for October and will focus on city finances and infrastructure, including tours of the water and wastewater facilities.

Cynthia announced that Smithville has been awarded approximately \$1.5 million in federal earmark funding for the Owens Branch Phase One utility project. This funding is in addition to the federal funding used for the 144th Street Lift Station and Raw Water Pump Station projects.

ORDINANCES & RESOLUTIONS

8. Bill No. 3127-26, Rezoning, Plat Approval & Conditional Use Permit – AYPa Battery Storage – 2nd Reading

Alderman Atkins moved to approve Bill No. 3127-26, approving a plat, changing the zoning from B-3 to I-1 and granting a Conditional Use Permit to AYPa Power for a Battery Energy Storage Facility at 14600 North 169 Highway. 2nd reading by title only. Alderman Hartman seconded the motion.

Public Comment

Lori Chapman, 14601 Mount Olivet Road, spoke to the Board concerning her opposition to the second battery storage facility and she also opposed the first, citing safety concerns. She noted there could be risks such as fires, explosions, toxic fumes, evacuations, and environmental contamination. Ms. Chapman urged the Board to delay approval if there is any uncertainty. She asked the Board to slow down and consider whether these developments fit the community's character.

Alderman Hartman stated battery storage facilities are needed because electricity demand is being driven by data centers, manufacturing, and electric vehicles. He explained that battery storage helps stabilize the power grid by storing electricity when supply is abundant and releasing it during periods of high demand, reducing pressure on the system and potentially lowering costs. Alderman Hartman noted that projects approved now may take several years to become operational, providing time for technology and safety measures to continue improving.

Upon roll call vote:

Alderman Wilson - Aye, Alderman Atkins - No, Alderman Hartman – Aye,
Alderman Stone - Aye, Alderman Kobylski – Aye.

Ayes – 4, Noes – 1, motion carries. Mayor Boley declared Bill No. 3127-26 approved.
