# SIX TIPS TO STAY STORMWATER SMART

## SHOVEL

Shovel snow onto vegetated areas. Grass and plants will act as a natural filter as the snow melts, reducing runoff into stormdrains that lead directly to rivers and streams.

### **USE LESS**

A little bit of salt goes a long way! Apply de-icers sparingly and remove slush once the snow melts to prevent refreezing.

#### RECYCLE

Save money by sweeping or vacuuming sal

#### STORE

Practice good housekeeping by storing de-icers under a roof or other cover to minimize polluted runoff

#### WINTERIZE

Winterize your vehicles to ensure there are no leaks. Avoid washing the car in the driveway to keep dirty water out of the storm sewer.
