Email address: aestheticsbytina@gmail.com
Type of Business: Skin care

Explanation of how funds will be used: Items can include specific cash flow gaps, payroll or any fixed operating costs required to remain solvent and/or scaling down, reducing expenses, purchasing cleaning and personal protection equipment, and any additional proactive measures due to the crisis (documentation required).

I'll use it to cover costs of my rent \$400 ea mo, supplies Germicidal cleaner \$38, equipment- air purifier with UV light \$99, stock, I also lost 10-20 clients because of covid-19 that would have averaged me \$100-\$200 ea. I would estimate \$2000.00 of revenue from lost clientele.

How will this grant help you get through the COVID-19 crisis:

It would provide me with stability. I love working in Smithville, and I would make sure I would be able to cover my rent number one. Then I would revamp my retail skin care line as it has suffered in restocking. I would also get additional equipment to protect myself and clients from the spread of COVID-19 such as a UV light unit. There are a variety of other misc. items I'd use the money for to ensure a safe environment for my clients.

I/We certify that the above information, including any attachments or exhibits provided herewith are valid and correct to the best of my/our knowledge.

CARES Smithville Small Business Grant Program Application Form Answers

Explanation of how funds will be used:

These funds will be used to assist with the costs of business interruption caused by required closures; economic support due to decreased customer demand as a result of the COVID-19 public health emergency; payroll; rent; purchase of protective equipment and cleaning and other expenses to maintain our clinic operations.

How will this grant help you get through the COVID-19 crisis:

Frankum Chiropractic had a substantial loss in customer demand as a result of the COVID-19 public health emergency. This grant will allow Frankum Chiropractic to continue caring for patients with musculoskeletal pain while keeping our clinic safe for our employees and patients. It will allow us to maintain the 2 full time and 1 part time employee during this time. Caring for musculoskeletal pain in this clinic reduces the patient population in emergency departments, urgent care centers, and doctor's offices, thus allowing those clinics to have more bed spaces for COVID-19 patients.

We did receive PPP money on April 11th which greatly helped us with payroll, our problem now is the extensive PPE we must purchase to work. We all are wearing KN95 masks with level 1 masks over them since we have to reuse them for days to save money. Also face shields must be worn each day and gowns are supposed to be changed after each patient. We could not afford to purchase gowns to change after each patients but did purchase enough to change after high aerosol procedures. We had to purchase medical grade air purifiers, construct plexiglass barriers, purchase extra hand sanitizer and UV sterilizers to sterilize our masks, phones and watches. We also have asked all the staff to leave a pair of shoes at the office but we have been unable to purchase work shoes for them due to cost. We would like to provide those since we are asking them to leave them at the office. These are all costs NOT covered by the PPP loan. Many of these we will have to continue purchasing during this pandemic.

Smithville Music has served the Smithville community for over 37 years. In that time I have moved twice, one by choice and this last move was forced upon me. I started out downtown in 1983 as the only instructor then shortly added a piano instructor. I now have 7 independent contractors working for me. I moved to 1601 S. 169 hwy after about 10 years and stayed there over the following 25 years until notified I would have to vacate by May 31, 2020. Then the covid hit, shutting down all in store business. While we were able to move many students to an online platform we still suffered approx. 30% loss of students plus the total loss of retail and repair business. Moving expenses mostly had to come from credit cards and out of pocket. This at a time when my wife's work was also cut back about 25%. You will see expense for signage and the \$400 for sign permit to the city. Also I had to have 3 pianos moved the rest my wife and I moved ourselves. Due to the covid issue I had to rent a much larger space for our studio (approx twice the size) as it is no longer safe to have the 10x6' teaching studios we had at the other location. Thus my rent and utilities are much higher. Also due to having to move students to an online platform for covid, I had to upgrade my internet, computers and online accounts. I had to switch all payments to "PayPal" which also has taken a percentage from my income. Business has come back to some degree however some lessons (such as voice and woodwinds) have had to stay online for safety reasons and will remain so in the foreseeable future, which cuts down any chance for growth in these areas.

I have received a SBA EIDL loan for \$12,500.00, they also sent me another \$1000.00(I do not know why this \$1000 was sent, at this time I have yet to receive any paper work). These are low interest but must be repaid over a period of time (not forgivable).

Thank you for your consideration,

Tim Szalette, owner Smithville Music Studio

revenue per year. Through this crisis we have
not laid off or furloughed anyone! We
all cut our hours, & pay raises & bonuses have
stopped. I would like to keep everyone
employed & thriving. This grant will keep
our doors open & fully staffed to not
financially affect our employees any further.
In addition, I would like to continue to
thank Smithville for its continued support
of our business! We have donated banners,
T-shirts & food as an effort to 'love' our
community. Thank you.
